The development team is aiming to provide a fresh challenge by reviving the concept of action RPGs with unique elements that attract new players and let you play in your own way. Developer: The Durandal, the team behind Rodea the Sky Soldier series, has a strong passion for developing games. Having spent a long time developing past action RPGs, Durandal thought that the excitement of action RPGs would be very appealing to new players, and has been creating the world of the first Action RPG for more than one year. As for the detailed process for preparing the game, we received requests to build such a world from our fans and felt that it would be good if people could join in. Then, we got together and discussed the implementation of this concept. Players who have been playing RPGs and know what kind of RPG they want will appreciate this game even more. We want our game to be a new experience to many new players by following the unique concept and constructing a game that flows in a new way. We are determined to create a game where you can play in your own way and experience a game that is as unique as you are. Features Features of Rise, Tarnished · Unique Action RPG The world of Rise, Tarnished is the world of ancient times, where fierce battles between the seven lords of the Lands Between are raging. The power of grace has been blessed and bestowed upon mankind, allowing them to live freely. However, all is not well, and seven different, powerful Evil Lords are waiting in the distance to claim the power of grace of mankind. These Lords will use people who do not have the power of grace themselves to steal the power of grace, and gather a vast army of enemies to attack the lands between. To fight these different Lords who are waiting to assault the lands between, you must acquire the power of grace from these enemies and fuse with and control them to grow stronger.
