city manager john v. hine has been preparing the 2019 budget for almost a year. he has requested a package of budget and capital improvement increases that will provide a tax increase of no more than 1%. we encourage the community to review the proposed budget with the city and ask questions of the budget and finance committee. we will work together to adopt a responsible budget that sets a good fiscal course for the city, enhances our city services and continues the city's ongoing fiscally responsible, prudent budgeting. want to learn how to play the clarinet? well, here you go! starting today, you can make your first payment free! at that point, you will be prompted to select a number of packages that can help you on your way to learning the clarinet. your first package will contain lyrascan, a high quality app that guides you through the entire learning process. the app will recommend the exact tracks and exercises to learn your instrument. the clarinet's system is unrivaled in the industry and currently holds over 6 million users worldwide.. klayton and other artists have listened to your notes, and now they've built a tool to help you along your way. it'll suggest exact pieces of music that are perfect for improving your skills. use the app to learn from any artist or band you love on any instrument. facebook is working on a way to let people search for anyone else. this sounds like a good thing. people search for stuff on facebook all the time. what makes this different is that you can search friends for pics or videos that they share, or you can search for any public post.. facebook wants to make it easier to find friends on the platform. and on thursday, ceo mark zuckerberg announced a new search tool to help people do just that. facebook search will be available on the web, ios, and android apps.

amongst those who have been eager to seek out the local and regional public health data is superintendent of alban county health services dr. mary l. bassett. she and the county ceo, dr. howard zucker, convened a top-down review of the data, recent development on the coronavirus and how to best protect the community. the process culminated in a public health board meeting to reach consensus on strategies to establish a covid response. today, the board convened an all-hands meeting to establish a covid preparedness strategy that will be implemented in the coming weeks.

we would like to take this time to thank members of the public for their patience and continued partnership with the county, our partners in alban county emergency management, and our public health partners at both the guilderland and altamont libraries. we will continue to work closely with our community, our partners in alban county emergency management, the centers for disease control, the alban county health department, and our state and local public health professionals.

our commitment is to keep the public informed and supported during this time. we encourage anyone who is concerned about a family members health to call the county health hotline at 518-831-6611, to reach the alban county health department, to contact your primary care provider, or to visit our website at <https://www.albancounty.gov/emergency/covid-19> to stay connected to information and resources for county residents and the alban county health department. during this time of increased public scrutiny and privacy concerns, we encourage everyone to exercise patience and kindness towards each other. we look forward to continuing the public health response to covid-19 together. 5ec8ef588b
