Q: Is it worth taking a transit visa to visit a friend in the USA? I have a 6 month visa which I have the choice to use it or not. However, I'm planning to visit my friend in the US soon. He is already in the country for a year and he told me that there's no problem for him to extend his stay for another year because he doesn't have a student visa and so I don't have any visa problems when I visit. I'm afraid that the transit visa can affect the entry of my friend to the US. Is it wise for me to take a transit visa to visit him or it is not worth the trouble?

A: From the E-Visa Website, section G: Q: Does the Transit Visa Requirement Apply to International Visitors ... For visitors travelling through the United States as a part of a connecting flight, and who are not arriving in the United States in the same trip as the final destination, a valid visa is required. From your comments it seems you are arriving in the US on a connecting flight, meaning you are on a US-bound flight, and are not travelling in the same trip to your destination. In that case, you need to have a valid visa. If it is not worth the trouble, then just use the same visa you have. If it is worth the trouble, then you have options: Obtain the visa at the US Embassy in your home country or Overseas Consular Office before leaving for the US (to avoid lines at the US Embassy). From the Embassy of the United States of America, Department of State, International Travel: ... Applicants can also make arrangements to have their visas issued overseas. The Department generally recommends that visas be obtained through an overseas consulate or embassy. This is the fastest and easiest way to obtain a visa. Please note that many US diplomatic missions impose time limits on the receipt of visa applications and require applicants to arrive with a completed application and all necessary documents. ... Note that the consulate or embassy that issues the visa may not be located in the f988f36e3a
