

default the program will be saved in C:\Users\username\AppData\Roaming\dek. Download The Software About us: Minecraft Hosting: a CDN (Content Delivery Network) Minecraft Hosting is a very fast, reliable CDN (content delivery network) created for the multiplayer servers of minecraft. Hosting will cache your files on multiple locations within the world. Larger players on the internet may be connected to multiple data centers in order to ensure faster speeds for the players. A step by step guide on how to set up Minecraft Hosting The data of your server will be stored on one of the data centers. Minecraft Download Link: In order to find your data center we will use the website of the CDN. If you follow the instructions correctly you will see your own data center. - Server name: Minecraft Hosting - Your role: Rep/Admin Minecraft Hosting will create a subdomain for you and will give you the IP address of your role. Example: - Data center: NET 1 - Your IP address: Example: 205.131.44.142 f988f36e3a
